The council gyanted this last demand and promised to reply to the other demands tomorrow. The council sent requests to both General Trepoff and Minister of the Interior Bouligan not to arrest the members of the deputation, but the police nevertheless took them into custody. Upon urgent representations, General Trepoff; an hour later, released them.

Countless Rumors.

Countless Rumors.

The people are extremely nervous and bordering on panic and are easy victims of every sensational ramor. Among countless baseless reports which received eredence today were that the emperor had embarked on a vessel and fled to Denmark; that General Trepoff had been kined by a bomb, and that Vice Admiral Birlleif had been assassinated by mutineers in the Black sea.

With a strike in the government post-office tonight communication with the interior practically ceased. Government troops were placed in the government telegraph office, but only a few lines are working. Many bness including the land lines to the continent and to Libau, where they connect with the cable, have been cut. At 10 o'clock, however, the cable by way of Nystad and Sweden was still open. This is now the only thread connecting Russia with the outer world. Admiral Darnovo, superintendent of posts and telegraph, told the representative of a European power this afternoon that he could not tell how long cable communication with the continent would last.

The Russian capital is like a city in the possession of a foreign army. Tonight again the soldiers are bivouacking in the darkened and otherwise deserted streets. Many meetings were held tonight in various quarters of the city, at which the workmen, encouraged by the success of the movement, were in a jubilant and confident spirit. The better classes, as a rule, are keeping closely to their houses. The government and the liberals are at a loss to know whose is the contriving brain behind the great strike. The directing hand is invisible, though its workings are plainly evident. It is thought the strike may have been directed from Switzerland or Germany and executed here through the social democratic organizations, in, which representatives of the workmen and the students are equally active. The organization is able to sway the great student body through its student members, and everywhere today the students were seen mingling with the workmen and taking an active part the students were seen mingling with the workmen and taking an active part

SITUATION ALARMING.

Dispatch Received From the American Legation.

Washington, Oct. 29.—The condition of affairs in Russia formed the basis of a dispatch received at the rate department from Spencer Eddy, the American charge at St. Petersburg, who said the situation was very alarming. The dispatch was the subject of a long conference between Secretary Root, who returned to the city from New York early in the evening, and Mr. Bacon, the first assistant secretary, who has been acting as the head of the state department during Mr. Root's absence. Mr. Eddy asked the department for further instructions to meet any or further instructions to meet any ventualities which might arise out of he condition of affairs as they now exist. St. Petersburg, and late in the evening hese were cabled to him. One feature of in St. Petersburg, and late in the evening these were cabled to him. One feature of these covers the question of protection of Americans residing in St. Petersburg in case of a general uprising which might endanger their lives. In the event of an outbreak they will be accorded the protection of the American legation until further arrangements can be made for their accommodation, if such be found necessary. It is not believed by the state department officials that there is any great number of Americans now in St. Petersburg, as most or the tourists have left the courtry in anticipation of the winter season. Such as may be in the interior it is thought are not in any danger.

The chartering of a vessel and nationalizing it by hoisting an Americans, is rather an unusual proceding, and is not resorted to except in cases of extreme emergency, the state department generally relying on the asylm afforded by the embassies and legations as adequate in the premises. The officials hope that such a step will not be necessary, but that the disorders will soon quiet down and the safety of Americans thereby a sured.

public today. It is signed by Major Cassius E. Gillette of the United States engineer corps, who investigated the Savar nah harbor frauds, and John Donald Mc-Lennon of Washington, D C. The report shows that up to date the city has lost through excessive costs, collusive bids, illegal advertising and in other ways, the sum of \$6.330.000. The contractors who received most of the more than \$18,000.000 that have been expended on improvements are D. J. McNichol & Co., James J. Ryan and John A. Keiley, and Vare Bros.

Members of the Firm.

The members of the McNichol firm are Israel W. Durham, leader of the local republican organization; State Senator J. P. McNichol, also a city leader, and the latter's brother, Daniel. The Vare firm is made up of State Senator George A. Vare and Edwin H. Vare. Their brother, William S. Vare, is a recorder of deeds, an elective office.

Officials Held Responsible.

The officials held responsible by the report for some of the conditions in connection with the filtration system are W. M. C. Haddock, who was director of public works under Mayor Ashbridge: Peter E. Costello, director of public works under Weaver until last May, when the mayor dismissed him, and John W. Hill, former chief of the bureau of filtration, who is awaiting trial in connection with the construction of the filtration system. The report says: The report says:

Theft of \$6,330,000.

Theft of \$6,330,000.

Omitting from construction all small contracts—say under \$50,000—we find for the illtration work and the two boulevards as constructed up to date, the city has paid or pledged \$18,761,541. First-class work under the specifications should not have cost over \$12,075,098 for legitimate contractor's profits. The difference is \$6,330,000. In other words, \$18,760,000 in round numbers has been paid for work costing the contractors \$19,356,000.

"Of the \$6,330,000 excessive cost there has gone to the contractors who worked under the name of D. J. McNichol, \$5,065,122; similarly to Ryan Kelley, \$53,000 and to Vare Bros. \$89,128. Of the \$18,701,541 there is unpaid about \$568,000 to McNichol and \$75,000 to Ryan and Kelley.

Work Not First-Class.

"Much of the work done by Ryan and Kelley and D. J. McNichol is not first-class. The parts which show prominently to the public are fairly well done; the parts that can be examined with little trouble are distinctly second class, and not up to the specifications. We, of course, do not know the condition of such portions as cannot be seen without tearing up the work, but wherever we have dug into it we find it second class or worse."

Continuing, the report says:
"A careful analysis of all filtration advertising indicates that everything possible was done to avoid any real publicity without letting the fact appear too preminently in the records. The bureau's preliminary estimates, instead of being freely furnished to bidders, were rigorously guarded secrets so far as the general bidder was concerned."

Denial of Accused.

Philadelphia, Oct. 23.—James J. Ryan, a member of the firm of Ryan & Kelley, said tonight that the statements that his firm made excessive profits are absurd. He said the work was done according to lans and specifications.

State Senator James P. McNichol said: "The statement that profits aggregating." "The statement that profits aggregating over \$8,000,000 have been made on the filtration plants is absurd. The we was in many respects experimental, and many losses occurred in unexpected places."

Mrs. Geary today identified three rings taken from the right hand found in the second dress suit case picked up near the new Charleston bridge on Friday last, as those worm by her daughter when she absented herself from the theatrical company on September 11.

Disappeared From the Company.

Confirmation of Miss Geary's dis appearance from the company came from Morris Nathan, secretary of the company, and to whom Miss Geary company, and to whom Miss Geary was engaged. Mr. Nathan is now in Pittsburg, Pa. According to Nathan, Miss Geary parted from him on the best terms the day after the company closed its last engagement in this city and he supposed, he said, that he would see her at the next performance in Lowell on the following day. Instead, however, a message was received by the company's manager from "P. A. Smith, M. D.," of Boston, which stated that "Miss Durrell" was suffering from stomach trouble and would be unable to report for several
